

## STEEL FABRICATION

With a team of highly experienced personnel and equipped with the state of art fabrication machines and facilities, we are capable of undertaking carbon steel and stainless steel fabrication works for petrochemical, oil and gas, construction, oil and fat, marine and general industry. Some of the things we have fabricated are:

- Storage tanks for water, mud, oil, acid and glue.
- Process tanks such as crystallizer, mixing tanks and steller tanks.
- Steam coils.
- Tower crane and offshore crane steel structures.
- Skid packages inclusive of skids, pipe spools and pressure vessels.
- Pipe racks and platforms.
- Custom design machine structures.
- Special structures to customer's design.

Crystalliser

Carbon Steel Glue Tank

Crane Pedestal

Raw Water Tank

Stainless Steel 316L Process Tank

Stainless Steel 316L Skid Package for Petronas Malaysia

Stainless Steel 316L Steller Tank

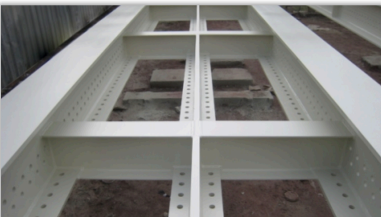

Stainless Steel Mixing Tank

Skid Tank

Hard Steam Piping
